Launch Only Privilege with south side Yard Storage May thru October: 250

Dock Box Rentals for pontoon and motorboat hoists: 246/268

The Club does not rent electric (except 5000# hoists) and/or hydraulic hoists, canopies, or hoists with side rails.

Midwest Sailing is prepared to sell new hoists or retrofits with battery powered winches, canopies for motor boats, and hoist side rails. Used hoists are generally available for sale between November 1 and March 15.

Notes:

1. This hoist might work for Tri-Toons if under 3600# with inside dimension of at least 50" from outside pontoon to outside pontoon and middle pontoons flange mount permits.
 2. If you your tri-toon or motorboat requires a hoist width of more than 110", please call the PYC office for price.
 3. Used hoists come with a new hoist warranty.
- *. Toon may need to be unloaded at Transient Dock before berthing

If you purchase a hoist from a source other than Midwest Sailing, you must confirm with PYC that it will fit!

Midwest Sailing (same phone number) is our sister company located directly across the road and does most of our marina maintenance and has year-round field storage. Their boat store has some general boating supplies and almost anything one would need for a sailboat as well as sells docks, boat hoists, and kayaks. They also do repairs (not engines) and installation. www.ms-pyc.com lists all of their services.

Payment is accepted by cash, check, and credit cards from Visa, MasterCard, and Discover. Visa, MasterCard, and Discover NON-DEBIT cards (reward cards), will receive a 4% auto-upcharge, those DEBIT cards 2%, and American Express Card is not accepted (even if you left home with it).

Categories, dues and initiation fees are subject to change without notice. All applicants, including those on a waiting list, will be subject to the fees and conditions of membership in effect at the time the membership is accepted. rev. 03/20/22
